CLE comes to you!

PRIVATE FRENCH LESSONS
ONLINE

Your weekly visit
to France with the
French language

Are you ready?

How it works:

FIRST

We will ask you to fill in the enrolment form and tell us:

- your level,
- your objectives,
- your interests,
- your preferred lesson day,
- your preferred time slot.

We will design a course based on your objectives, your needs, the themes that interest you and, to the extent that we can, your preferred time slot and day (taking into account time differences).

THEN

The day before your lesson (or earlier, if you prefer), your teacher will contact you to introduce himself/herself and email you the video, audio and/or written documents to prepare for your lesson so that you get the most out of your face-to-face time with your teacher.

Your lesson

READY TO START!

Once you have received the login link for your Skype or Zoom session and, prepared for your lesson using the documents sent to you, you are ready to start practicing your French!

DURING YOUR LESSON

You will find that your lessons are well organised, with a range of different activities efficiently managed and fun.

You can, for example:

- work on your oral communication skills,
- practice points of grammar,
- improve your pronunciation.

And then?

Following your hour-long face-to-face lesson, your teacher will send you:

- a summary of your lesson,
- links to self-correcting exercises to consolidate the points you have covered,
- a subject for you to write about if you wish to work on your written French.

PRICING

Each lesson includes :

- on average one hour of preparation
 - a 60 minute face-to-face lesson
 - on average one hour of consolidation
- 5 lesson package = €350

LESSONS FOR TWO?

Wanting to take lessons with a friend? No problem, as long as your French is at the same level.

5 lesson package = €250/person

I highly recommend CLE in Tours and its online classes. Homework and individual lessons are tailored to my needs, making learning fun, trustworthy and effective. All the CLE instructors are amazing and extremely competent. The price is the best value for money. I really like the online format.

Andrey
New York, USA

CLE tailored an online course just for me because I wanted to focus only on grammar. I meet Louise every week on Zoom, and we cover five or six fun activities over an hour, with follow-up homework. Louise is just as dynamic online as she is in the 'real' classroom. Her lessons are well organised, with clear explanations and materials. Best of all, I have a lot of laughs while learning – and the grammar really sticks!

Christine
Western Australia

We are really enjoying the on-line class we are taking as a couple. The teachers at CLE are fantastic – professional but also convivial. We are always amazed at how well they can hone in on our specific needs in just an hour of on-line conversation. With this skill they are able to tailor exercises and techniques to meet our needs through preparatory and evaluative videos each week. This results in an efficient all-around learning experience that strengthens our pronunciation, vocabulary, grammar, and written and oral expression– all while having a great time. And we have the joy of visiting France every week!

Virginia, USA

Student reviews

I highly recommend my school in Tours that is now doing online classes. The price is great and the teachers are fabulous. So much fun. Just finished an oral comprehension on champagne! I am doing this three days a week. One hour of video chatting and a couple of hours of homework each day. I have to say, the homework does not feel like homework. It is so engaging and fun. Check it out.
